A comparative statement of the area of the present States with that of the territory destined to be erected into States exhibits the inter-esting fact that the area of the latter in square miles exceeds that of the former. The superficial area of the Territories, organized and un-organized, is set down as follows: Kansas Territory 136,000 New Mexico Territory 141,000 Nebraska do 141,000 Nebraska do Oregon do 227,000 Mesilla do Mabilitato do 113,600 Indian do

Washington do

To these Dacotah is to be added, seen no estimate. The superficial area of the presen	of the extent of which we have nt States is as follows :
Square miles.	Square miles.
Maine 30,000	Delaware 2,120
New Hampshire 9,200	Maryland 9,674
Massachusetta 7,800	
Rhode Island 1,300

New Jersey 8,320	
Pennsylvania 46,000	
Ohio	Arkansas
Indiana 33,809	Mississippi 67,380

Iowa 50,914	Texas 237,321
California	NO LITTLE OF THE PARTY OF THE P

It is seen that the area of Kansas is nineteen thousand square miles greater than that of all New England, New York, and New Jersey; and that the area of Nebraska is ninety-five thousand miles greater than that of all the non slaveholding states except California. Oregon is nearly equal in extent to all New England, New York, Pennsylvania, Ohio, and Indiana. It is possible that New Mexico and Mesilla will be embraced in one territorial organization by Congress at the present session, containing 288,000 square miles—exceeding all New England, New York, Pennsylvania, Ohio, Indiana, and Illinois. Washington exceeds in extent all New England And New York.
